KANDANGA VALLEY CHABLIS (P)

Welcome one and all to our 4th Annual 'Summer' bull sale. This year to be held on Saturday January 20th, commencing 10am at 'Warravale' in the beautiful Mary Valley.

We have catalogued for your inspection on sale day 60 very tidy, quality young bulls that are looking most impressive, consisting of 30 Charolais, 8 Red Angus cross Charolais and 22 Charbrays. All are acclimatised to coastal conditions and have had plenty of exposure to cattle ticks.

As I write this welcome our home property is a picture of green pasture although very short – a complete contrast to one week ago.

It is truly amazing what a few inches of steady rain can do over one week to change the outlook. Not only are our pastures growing but the price of cattle is already lifting and should continue to do so into 2024, giving us all a degree of optimism that wasn't there a month ago.

These young fellows came through an amazing 88 inches of rain last year into the driest eleven months we have seen in our fifty years of living on this property.

There's quite a growing percentage of polled genetics in our herd which is reflected in the sale line up with some very good quality bulls having DNA tested as homozygous polled.

Having said that, we do feel that we've managed to maintain the muscling and performance plus constitution – traits that are evident in this line up of beefy boys. Kandanga Valley bulls have proven time and again in many herds, in all environments, to not only display the above mentioned traits but also to improve herd fertility and milking ability. Of course they all have good feet and legs plus tidy sheaths and strong masculine heads, and did I mention plenty of muscling to breed excellent, heavy weaners.

Roz & I, along with Nick & Grace and our family would like to take this opportunity to wish you all a Merry Christmas and a Happy New Year and look forward to catching up on sale day.

# About Us & Stud History

Both the Kandanga Valley Charolais and Charbray studs were established in 1988. The first Charolais cattle at Kandanga were purchased by John's parents, Kev & Joan, in 1973 and there has been a Charolais infusion in the Kandanga Valley herd since those early days.

John and Roz purchased Warravale, Kandanga, from John's parents in 1986 and have since owned a Central Queensland property and properties in the Tansey and Gympie district plus agisted properties west of Gympie. Now having sold all of our Tansey grazing country we have secured a very nice property at Moonie on the western downs where most of our Charolais females now run.

We have raised four great children, Wade, Kate, Nick & Brooke and are now proud grandparents to an ever increasing group of fine, good looking offspring.

The first registered Charbray cattle were purchased in 1979 at the Nahrunda Stud dispersal at Gympie. The tremendous growth and easy doing ability of these first Charbrays, with the added benefit of tick resistance, convinced us that Charbray cattle were the most profitable in our environment and probably most other environments as well. Their saleability at fat or store markets is second to none in Queensland.

We now put a heavy emphasis on breeding generation bred (purebred) Charbrays for a much better consistency of progeny to hit the ground.

Early stud Charolais breeders were purchased from numerous high profile studs plus smaller herd dispersals back in the eighties. Since then we have bred heavy muscled, soft fleshed French type cattle with an eye on all the traits required to perform in Queensland conditions. Traits like fertility, milk, growth and muscling rank very highly in our selection criteria. Our herd is run very similar to any commercial herd with poor performers being culled quickly.

Having access to such a large number of stud females has allowed us to be very selective within our herd and we think the bulls offered during this time reflect this as do their very positive EBV figures.

We are now running in excess of 1300 registered stud cattle, down from a peak of around 1700. We have put a big emphasis on fertility and productivity over the last few years as we have wound our herd back to a more manageable level.

# About The Sale Bulls

## CHAROLAIS

Although these young boys suffered through an extremely wet year after weaning which set them back substantially, they are now making up for that slow start and are coming along in leaps and bounds.

On January 20th, we will present 30 beefy, young Charolais bulls including 16 polled and 4 red factor.

Lot 1 is an outstanding polled, red factor bull by the well proven sire, Allednaw Prince, and will stand up to the most discerning inspection.

There's also 9 sons of ANC Lingo that display that great French muscling that works so well over Bos Indicus females to produce heavy weaners.

Once again we also present a great line of beefy, early maturing, low birth weight sons of Minnie-Vale Nouveau who needs no introduction to our regular clients.

If you're looking for early weight for age and plenty of good, soft Kandanga Valley muscling, this line of young Charolais bulls will fit your herd perfectly.

## RED ANGUS CROSS

These are the last 8 of our Red Angus bulls we will present and we think you'll agree they are very impressive.

All polled and gold in colour with lots of deep, soft muscling and by a low birth weight sire – these big boys are well worth a look. They are a little older than the Charolais bulls and are ready to go straight to work into a mob of cycling cows.

## CHARBRAY

22 Charbray boys are on offer on January 20th including 5 polled.

There are big bullock breeding bulls in the group by Kandanga Valley Jesuit and his outstanding son Kandanga Valley Panama Pete. These boys will grow into big bulls, with outstanding weight for age and plenty of bone and muscling.

There's also a very tidy line by our heifer bull Trifecta Prince, who breeds very neat and structurally sound bulls that are born small and grow like mushrooms. (Great for heifers).

All up this is a handy line-up with especially tidy sheaths and very good feet and legs that will stand up in any environment.

All of the bulls catalogued have been vaccinated with 7-in-1 as calves, 3-germ blood at weaning, 3-day and vibrio vaccines as yearlings with a 3-day booster in spring 2023.

They are used to horses, dogs and buggies.

They are all reared here at Kandanga after weaning and know how to forage and survive in hot conditions on coastal pastures.

**ALL BULLS ARE MUSTERED WITH DOGS, HORSES AND BIKES.**

  11. Any vendor or purchaser removing the Sale Number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damages should the lot be wrongly delivered.
  12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions and shall jointly and severally carry out and perform sale.
  13.   14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf, for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.
  15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
  16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trades Practices Act or any applicable State legislation which cannot be contractually these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby executed. The auctioneer is not liable in respect of any error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
  - (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to remain with the vendor.
  17. In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser, and the auctioneer, while he shall use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.
  18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.
  - (b) If any vendor brings to the premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right in its absolute discretion, to exclude from the sale venue or dispose of any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
  19. **DELIVERY.** Except at the discretion of the auctioneer, no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer, pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
  20. In these Conditions:-
    - (a) References to "auctioneer" shall be taken to mean as the contest so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot.
    - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1.
    - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm.
    - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.
- IMPORTANT NOTICE** The Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.
- All persons who attend the sale do so entirely at their risk and the Vendor and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.
